PURCHASING PREFERENCE FOR LOCAL BUSINESSES

The purpose of this policy is to apply a local preference of five percent (5%) in the evaluation of bids and proposals in order to offer a competitive advantage to local vendors. In a price-based bid, five percent (5%) will be deducted from the local vendor's proposed cost for the purpose of comparison when the local vendor's proposed cost is not the lowest.

If the local vendor's bid is equal to or lower than the price of an otherwise successful non-local vendor after the 5% preference is applied, the local vendor will be given the opportunity to match the lowest quoted price.
